2mm ABS edging.
Silver RAL 9006 metalwork.
25mm Square tubular steel leg frames with floor protectors.
Fully welded underframe with bolt-on legs.

Product Code:	Size:
SCT60/C	1500 w x 750 d x 400 h.

Norton Trapezoidal Coffee Table.

18mm MFC top panel.
2mm ABS edging.
Silver RAL 9006 metalwork.
25mm Square tubular steel leg frames with floor protectors.
Fully welded underframe with bolt-on legs.

Product Code:	Size:
TRAP60/C	1500 w x 650 d x 400 h.
TRAP48/C	1200 w x 650 d x 400 h.

Norton Telephone Table.

18mm MFC top panel.
2mm ABS edging.
Silver RAL 9006 metalwork.
25mm Square tubular steel leg frames with height adjusters.
Fully welded underframe with bolt-on legs.
Complete with 18mm MFC undershelf.

Product Code:	Size:
TEL	750 w x 400 d x 740 h.

MFC Finishes.

The 6 finishes below are our standard MFC finishes.

Beech

Grey

Maple

Oak

Walnut

White

Metalwork and Plastic Handle Finishes.

The finishes below are our metalwork and plastic handle options. Please note, Silver (RAL9006) is the only metalwork finish available on the Norton range.

Silver - RAL 9006 (Standard)

Black Graphite - RAL 9004

White - RAL 9003

Whilst every effort has been made to ensure accurate colours are illustrated in this PDF document, there may be a slight colour difference due to monitors and mobile devices, therefore please refer to our colour sample swatches prior to ordering.

Note: Room props, plants and lighting illustrated in the document not supplied.

Silver Plastic Handle.

Supplied as standard.
Size: 200 w x 13 d x 19 h.

Black Graphite Plastic Handle.

Optional Colour Option
Size: 200 w x 13 d x 19 h.

White Plastic Handle.

Optional Colour Option
Size: 200 w x 13 d x 19 h.

SUPPORT

We pride ourselves on our friendly and approachable service and it's important to us that our customers know we care. We deliver a blend of innovation and expertise that comes from years of experience in various sectors, resulting in an understanding of the processes throughout a project.

Because every customer is unique, different levels of support are offered, tailored to suit each customer's strengths.

Our customer support team will continue to provide after sales support, long after the purchase and installation of a product. We understand our client's needs and we're here every step of the way, with what we believe is a personalised service, remembered for years to come.

MANUFACTURING

We understand that the quality of our products is a reflection on British Manufacturing, leading us to ensure the technology we invest in streamlines our manufacturing methods, reduces production flows, substantially increases output and also assists in achieving our ambitious sustainability targets, whilst maintaining our excellent quality standards.

PRODUCT GUARANTEE

Our products carry a 5 Year Guarantee.

Every product is thoroughly examined prior to delivery and is guaranteed to give 5 years of satisfaction, when used for the purpose for which it was intended.

Should any fault develop, we agree to repair or replace any defective parts without charge, providing the product and its components have not been altered.

CONTINUITY OF SUPPLY

Whilst we reserve the right to alter, amend and improve our product, it is our policy to offer continuity for existing installations. We therefore ensure the design and modular compatibility for a period of up to five years.

Special requirements may be accommodated, by prior arrangement.

Baseline

A BRITISH COMPANY

FOREST STEWARDSHIP COUNCIL

As well as being incredibly stylish, practical and affordable, Baseline Furniture sources from FSC approved suppliers.

FSC is recognised by WWF as the “hallmark of responsible forest management.” It heralds a system that ensures products bearing the ‘tick tree’ logo are produced from well-managed forests and/or recycled materials.

This means that we are doing our utmost in helping to protect and maintain high conservation forests respecting the nature, communities and workers surrounding it. Respecting the environment is at the heart of everything we do, so when sourcing timber, we look to trusted organisations to give us peace of mind.

FSC intend to meet the needs of the present generation without compromising those of future generations and we couldn’t agree more.

OUR PLASTIC AWARENESS POLICY

We adhere to our Circular Economy business model that aims to deliver 100% recyclability.

The use of recycled plastic in place of virgin resin typically results in reduced energy consumption, lower cost, and reduced environmental impact.

Our Alpha and Norton furniture products permits all plastic components to be recycled through curbside programs. The following illustrates what type of plastic is used within the range and its recyclable properties.

WHAT WE USE	RESIN TYPE	RESIN ID CODE
MFC Panel Edging.	Acrylonitrile Butadiene Styrene.	(ABS) 9
KD Connecting Block Fittings.	Nylon 66 Polyamide Nylon.	(PA) 66
Adjustable Levelling Feet.	Polypropylene.	(PP) 5
Floor Protectors.	Polypropylene.	(PP) 5
Pedestal Castors.	Polycaprolactam – Polyamide 6	(PA) 6
Cover Caps.	Low Density Polyethylene.	(LDPE) 4
Frame End Caps.	Acrylonitrile Butadiene Styrene.	(ABS) 9
Cable Tray Access Grommets.	Thermoplastic Elastomers.	(TPE) 7
Cable Ports.	Acrylonitrile Butadiene Styrene.	(ABS) 9
Drawer & Door Handles.	Acrylonitrile Butadiene Styrene.	(ABS) 9
Drawer Locking Bar.	Acrylonitrile Butadiene Styrene.	(ABS) 9
Filing Drawer File Clip.	Acrylonitrile Butadiene Styrene.	(ABS) 9
Packaging Materials:		
Packaging Cling Film	Polyvinyl Chloride.	(PVC) 3

- 

Polyvinyl Chloride (PVC)
Extensively recycled in Europe through Vinyl 2010 and VinylPlus initiatives.
- 

Low Density Polyethylene (LDPE)
LDPE is becoming a popular recycled plastic through curbside programs, due to the increase in shopping bag waste.
- 

Polypropylene (PP)
Can be recycled through some curbside programs.
- 

Thermoplastic Elastomers (TPE) / Thermoplastic Vulcanizate Elastomers (TPV)
Thermoplastic Elastomers can be recycled nearly up to 100%. Due to uncured molecular chains, it is possible to melt down the thermoplastic elastomers again and again. This characteristic turns the Thermoplastic Elastomers back into its manufacturing process.
- 

Acrylonitrile–Butadiene–Styrene (ABS)
ABS is recycled by first shredding used plastics to produce shredded plastics. After this step, metals and undesirable plastics are separated from the shredded plastics to produce separated plastics.
- 

Polyamide (PA)
Polyamide is 100% mechanically and feedstock recyclable. Recycled content is made into new product formulations. This is a mixed plastic made up of many polymers.
